

Wet wipes packing machine

Artikel-Nr. 4640

Technische Daten:

Maschine:	Wet wipes packing machine
Hersteller:	Gutenberg
Typ:	Wet wipes packing
Größe:	16
Kapazität:	90
Jahr:	2021

Beschreibung:

Antibacterial Disinfecting WET Wipes PACKAGING MACHINE

Suitable for Antibacterial Disinfecting wipes, ideal for personal care, home surfaces, offices, and schools.

It's a seal sachet packaging machine with horizontal packaging roll flowing, capable of producing wet wipe sachets from 50x50mm to 140x160mm, filling disinfection detergent. The machine is equipped with colored HMI, offering all advantages of using industrial computer like controlling the speed of the machine, changing the packet and the towel dimensions, activate/deactivate the photo cell unit changing the length of the pouch and so on. It is a CE certificated machine with safety doors.

MAIN FEATURES

- Robust machine construction
- PLC Control System
- 7" Touch Screen
- Smooth Operation
- No Need for Air Compressor
- Counting System
- Easy to clean and maintenance
- Easy to change sachet and wipe dimensions
- V Notch for easy open

APPLICATIONS:

Machine Specifications:

- Capacity: 75-90 sachet/ min
- Control System: PLC / Touch Screen
- Sachet Dimensions: Min 50x50 mm : Max 120x160 mm
- Wipes Dimensions (Unfolded): Min 90x90 mm : Max 240x240 mm
- Electricity: 1 Phase 220 Volt: 2,5 KW/H
- Compressed Air: 80 L/Min only in Gripper model otherwise no need.
- Machine Dimensions: Width: 180 mm, Length: 180 mm, Height: 170 mm
- Machine Weight: 650 kg including the non-woven roll stand
